

As of March 30, 2022, the following nine former IFP countries, including seven of the eight full member countries, have formally notified the IFP in writing that they have officially withdrawn their participation from the federation:

Australia\*  
Canada\*  
Czech Republic\*  
England\*  
France\*  
Mexico  
Philippines  
Spain\*  
United States

\*Also current members of World Pickleball Federation

The former IFP countries and directors are committed to building a collective international organization worthy of the respect of its member countries. An organization that is driven by integrity, democratic principles, transparency and inclusion.

A Task Force has now been established, composed of the presidents (or their designees) from the nine former IFP member countries. This group is now actively exploring and evaluating the options available going forward, which include joining the WPF, introducing a new international federation and merging the WPF into it, or introducing an independent, new international federation.

In addition, the following former IFP directors have all resigned their positions, effective March 30, 2022:

Board Member (Secretary)  
Board Member (At-Large)  
Director of Grants  
Director of Tournament Operations  
Director of Livestream Productions  
Director of Sponsorships  
Director of Education and Youth Development  
Director of Ambassadors  
Director of Social Media  
Director of Country Memberships

The joy created by our sport, its inclusiveness, health and social benefits, and the ability to unite all backgrounds around the world remains our goal, as we embark on the next chapter. We remain grateful for your understanding and support.
